Manufacture of railway spare parts, Alstom train air conditioning and oil-sector supplies

WHO WE ARE

An engineering and supply company with 21 years of experience. We work in the railway, marine, oil, industrial, electromechanical, electrical and construction sectors, delivering the highest quality and speed. Our services are built on integration, innovation, professionalism and honesty.

MISSION

To develop, manufacture, sell and distribute specialized equipment and machinery for the railway, industrial, electromechanical and marine sectors, with cutting-edge technology and a qualified team.

VISION

To be a leading, solid and reliable company in our category, with solutions tailored to the specific needs of our market.

Three Fronts, One Partner

RAILWAY

- Construction, rehabilitation and maintenance of railway tracks
- Rails, fastenings and railway spare parts; road-rail trucks
- Control, signaling and electrification
- Exclusive representative for Venezuela of FCS Railway, Puran, ZIQI and Uromac

MARINE AND OIL

- Marine fenders and pier rehabilitation
- Loading arms, quick-release mooring hooks and gangways
- Bathymetry and dredging
- Operational control and fire protection
- Monobuoys, in alliance with monobuoy manufacturers

INDUSTRIAL AND ELECTRICAL

- Industry: materials, equipment and spare parts
- Timken tapered and cylindrical roller bearings
- Electromechanical: escalators, mobile scaffolding, maintenance and equipment cleaning
- Electrical: substations, regulators and solar panels
- Construction: planning and labor

OUR SERVICES

Consulting · Engineering · Supply · Maintenance · Repair · Installation · Rehabilitation · Modernization · Recruitment of specialized personnel · Technology transfer

FMH GROUP

From the Pier to the Terminal

MARINE

EXCLUSIVE REPRESENTATIVE FOR VENEZUELA OF

Kanon loading arms	**Mampaey by Trelleborg** quick-release mooring hooks	**Verhoef** gangways
